

Philip Wetton Workshop 2012

Realising the Astronomy of the Future

6th & 7th June 2012

Blue Boar Lecture Theatre, Christ Church, Oxford

Confirmed Speakers

Paul Alexander
Roland Bacon
Marc Balcells
Michele Cirasuolo
Gavin Dalton
Ric Davies
Gary Davis
Richard Davis
Pierre Ferruit
Simon Garrington
Mike Jones
Tim Morris
Matt Mountain
John Richer
Adrian Russell
Angela Taylor
Matthias Tecza
Niranjan Thatte
Robert Thomson
Scott Trager
Richard White
Gillian Wright
Ghassan Yassin

To bring together people working on telescopes and instrumentation across a range of wavelengths to provide an update on status and progress, identify synergies and consider how a healthy programme of technology and instrument development can be sustained into the future. Speakers will be encouraged to identify how the key technology developments, on which their instrument rely, came about.
